LISSADELL DRAFT FOREWORD

The Lissadell Simmental Herd was established in 2013 and our foundation females were very carefully selected to mirror all the positive traits of this super breed. We use 100% A.I. and look to select bulls that will drive growth rate while maintaining the style and quality we want to breed.

We are very committed to and get great enjoyment from showing and as you will see from our animal credits have had another extremely successful year in 2019.

We hope you the customers like our offering of heifers and if successful in purchasing we would like to wish you the very best of luck and enjoyment with you new herd additions.

Kieran & Paul Mullarkey.

RACEVIEW DRAFT FOREWORD

Raceview Simmentals have chosen to offer for sale the Entire Autumn 2018 born crop of females plus two oldest 2019 born females. Also offered are four older heifers ready for breeding.

At Raceview we like to offer our heifers reasonably well fed and fit to go forward for their new owners.

Our 2019 Draft offers heifers from our very successful lines, Beauty, Matilda Stella, Winty Matilda and of course our Ballingar Kim line.

Our 2019 Draft offers customers a new opportunity to buy from a New Line of King x Herkules Daughters (Rachel Line) who's first two daughters come on sale.

We congratulate our past customers on their success and hopefully look forward to more success from our future customers.

Best of luck from the O'Connell Family @ Raceview

CLONAGH DRAFT FOREWORD

We are honoured to present these fifteen elite females for the Premier sale as a celebration of thirty years of breeding Simmental cattle. These ladies are the cream of the crop from 2018 and 2019 consisting of three national champions including this year Overall Simmental of the Year, Clonagh Jubilant Fabulous. To the best of our knowledge an animal of this title has never been offered at a sale. These are heifers we would normal not offer for sale and of course love to retain but we are celebrating thirty years and we would love to think that in thirty years these bloodlines will still be in the back breeding of the next generation of Simmental breeders.

Some of these ladies go back to our original purchases Clough Sandra and Clonaslee Wanda both of whom were instrumental in the success of the herd. Seabank Rosebud was also among one of our original purchases and still very active in the herd today. We have purchased few females over the past 15 years, Milton Seniorita obviously being one of the luckiest animals we have purchased and the highest grossing single female. Corlesmore Willow and Rose were purchased privately in 2013 and left us a lot of females, four proven females were purchased at the Knockane sale in 2015 and Curaheen Gloria P was purchased at the Curaheen Dispersal in 2016.

It is often advice we give to new breeders when looking to start your herds, all you need is that one good female from a proven line and the herd will build itself.

We are strong believers in BULL POWER! There is a saying that a bull is “half your herd” they can make you are break you. We have been blessed with the success of Banwy T-Rex both on his own progeny visual, functionally and now how they are breeding. His daughters gelled tremendously with Kilbride Farm Dragoon adding a big sea of red to our line up which was a bonus. We are delighted to now see Dragoon daughters making their make on the herd and continuing to click with Bruchag Glenfiddich and now Manor Park Hansome.

Over the past 30 years we have had many highs and lows but we’ll not dwell on the latter. We are well known for bringing out “the army” to shows and sales, long days and short nights but worth every second. Two main highlights for us were Roscommon Premier Spring Sale 2018, winning all three championships, “the hattrick” with our Dragoon progeny and setting a new herd record of 312,500.

Our other highlight came just this year at the National Livestock show, winning eight national titles, Overall and Reserve Overall in both the male and female sections but most notably the honour of having the entire senior female line up of our five ladies, a testament to the females produced in our herd.

We would urge any prospective buyers to visit our website www.clonagherds.com to view details of all lots and their ancestry.

Simmental cattle brought us together, next to our children and our families they are the loves of our lives. We hope that these girls and their future progeny can give as much satisfaction to their new owners as they have to us for many years to come.

Garrett & Lyndsey Behan

This page is intentionally left blank

CONDITIONS OF SALE AT AUCTION OF PEDIGREE CATTLE

The highest bidder for each animal shall be the purchaser, and in the event of any dispute, the Auctioneer shall have absolute discretion either to settle the dispute or re-offer the animal immediately.

The Auctioneer may, without giving any reason thereof, refuse to accept any bid and may withdraw any animal for which the bidding is considered insufficient.

No person may advance less at a bid than a sum to be named from time to time by the auctioneer, and no bidding may be retracted.

The vendor may bid for any animal, or animals, and may withdraw any animal, or animals either personally or through the auctioneer, or through any person, as many times as they respectively may think fit.

The purchaser of each animal shall give their name and address to the auctioneer and pay for all animals purchased in cash immediately at the close of sale. No animal or animals shall be removed from the sale premises until paid for in full and a pass-out slip is obtained from the Auctioneer.

Each animal shall be at the purchaser's absolute risk from the fall of the hammer, and shall be removed from the sales premises at the purchaser's expense.

The right of property of each animal shall not pass to the purchaser until the full purchase price is paid and the contract of sale is signed by the purchaser.

Care has been taken to ensure the accuracy of the catalogue, but no sale shall be invalidated by reason of any defect or faults in any of the animals by reason of the animals being incorrectly described in the catalogue, or by the Auctioneer in the ring, and no compensation whatever shall be paid in respect of any such faults or errors of description.

All statements in the catalogue are made by the Auctioneer at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale, and the vendors shall not be in any way liable should this occur.

Neither the vendors nor the Auctioneers will be responsible for any accident or any injury to persons or property through fire or any other cause whatsoever, nor for any damages by animals prior to, during or after the sale.

All animals are sold subject to the Conditions of Sale recommended for use at auctions for the sale of pedigree cattle by the Irish Simmental Cattle Society Ltd.

The vendor gives no warranty whatever as to the fertility or performance of any bull, and each purchaser is invited to insure against this or any other risks, at his own expense.

Purchasers not complying with the above condition shall be subject, without further notice, to have their animals re-sold either by Public Auction, or by private Treaty, at the discretion of the vendor and the defaulter would be liable for any loss and expense that accrues on the re-sale.

The Irish Simmental Cattle Society accepts no responsibility for any errors or inaccuracies that may have occurred in the compilation of this catalogue.

PEDIGREE CATTLE BREEDERS COUNCIL OF IRELAND CONDITIONS OF SALE TO APPLY ON ALL SALES OF PEDIGREE CATTLE

These Conditions (and where appropriate at auctions, these Conditions together with the General Auction Conditions of Sale), form the basis of the contract between the vendor and the purchaser, and from the contract all conditions and warranties implied under the sale of Goods Act 1893 and the Sale of Goods and Supply of Services Act 1980 or any other statutory enactment or implied by any law or custom or usage are expressly excluded.

In the event of a Sale by Auction and there arising conflict between these conditions and the General conditions of the Auction, these conditions shall prevail.

All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself about the animal prior to sale.

Save as hereinafter provided, no warranty whatever is given as to the performance or fertility of any bull and the purchaser is hereby invited to insure against this or any other risks connected with the bull, at his own expense.

The vendor shall and does hereby provide the following guarantee as to the fertility with each bull sold - (a) No guarantee whatever as to fertility is given with any bull under the age of nine months at the date of sale, unless otherwise stated in writing.

(b) Subject to the Conditions hereinafter set out, the vendor guarantees that the bull is capable of putting a cow or heifer in a state of pregnancy by natural service within four months of the date of sale or within four months of attaining the age of fourteen months, whichever is the later. This guarantee shall be deemed to be fulfilled whenever one female animal is proved

to be in calf by natural service to that bull, subsequent to the sale. A bull shall not be deemed to be incapable of putting a cow or heifer in a state of pregnancy by natural service on a semen test only.

The foregoing guarantee is subject to the following conditions:-

The bull shall be fairly tried with a view to him putting a cow or heifer in a state of pregnancy by natural service within two months of the date of sale or within two months of attaining the age of fourteen months, whichever is the later. For the purposes of this paragraph, "fairly tried" shall not be deemed to have occurred when less than three female animals in season have been properly presented to or run with the bull.

If, upon purchase of the bull, it is found impracticable for the buyer to fairly try the bull within the period stated at paragraph 6(a) above, due to the purchaser's normal calving programme, the vendor must be informed in writing immediately after the sale of the month in which it is proposed to commence using the bull. The vendor shall not unreasonably refuse to extend to the purchaser within seven days of receipt of the said notice in writing from the purchaser.

The Purchaser shall give notice in writing by registered post to the vendor of an inability of the bull to put a cow or heifer in a state of pregnancy by natural service or a suspected inability in this respect, not before the expiration of one month nor after the expiration of three months from the date of sale or of the bull attaining fourteen months, or any extension of the commencement of the trial period granted pursuant to paragraph 6 (b) above or whichever is the later.

Breeding Guarantee - Females: Any cow or heifer realising 500 gns, or more that is stated by vendor as having been served or artificially inseminated not less than 12 weeks before the date of the sale shall be guaranteed in calf to the service date or date of artificial insemination and to the bull stated, unless any alteration to the service particulars is announced from the rostrum or by the vendor at the time the animal is sold. The term "running with the Bull" implies no guarantee of pregnancy unless specifically stated by the vendor at the time of sale, neither shall the provision by the vendor of a certificate of positive pregnancy diagnosis imply any such guarantee this being merely an expression of opinion. Every heifer sold as un-served shall be so guaranteed and all such heifers (unless sold suckling their dams) shall carry a guarantee that they are capable of breeding. Calves sold suckling their dams are given to the purchaser free and no guarantees apply unless specifically stated by the vendor at the time of sale. No claim under these Rules will be effective unless made to the Auctioneers or to the vendor within the following time limits, as applicable, viz:

In the case of a cow or heifer sold as being in calf which proved NOT to be in calf - within 49 days of the date of sale.

In the case of a cow or heifer which, although in calf, does not calve to the stated service or insemination date - within TWO CALENDAR MONTHS of the date that the animal should have calved according to the particulars of service or insemination stated in the catalogue of sale, in all such cases, no claim will be admissible unless there is an interval of more than four weeks between the presumed due date (according to the stated particulars of service or insemination) and the actual calving date. NOTE the average gestation period for cattle is 285 days.

In the case of a cow or heifer calves at a later date than the due date the onus of proving the identity of the service bull shall be upon the vendor.

In the case of a heifer sold as un-served and which subsequently proved to be in calf - within SIX CALENDAR MONTHS of the date of sale.

In the case of a maiden heifer which proves incapable of breeding because of malformation or abnormality of the genital system - not before the animal attains the age of TWENTY SEVEN MONTHS and no claim under this rule be admissible after the animal has attained the age of THIRTY SIX MONTHS. NOTE: Any female (cow or heifer) that has been flushed for embryo transplant will be EXCLUDED from the terms of this guarantee but individual vendors of such animals shall have the option of giving their personal guarantee to be announced at the time of sale. No claims will be admitted under these rules where it can be proved that a cow or heifer is carrying a mummified calf, or has aborted or re-absorbed a foetus and no guarantee is given or implied that any cow or heifer will carry a calf full time. All claims must be submitted to the vendor and the Secretary of the Society and shall be resolved in accordance with the provisions of clause (f) of this agreement.

This agreement shall be interpreted in accordance with the law of the Republic of Ireland.

Commission - 5% payable by the Purchaser.
