Myostatin Information

In this Catalogue you will find Myostatin results on animals in the additional information section. Myostatin is a gene that influences the production of proteins which control muscle development. Currently in cattle, there are 19 known mutations of the gene, however, research to date has shown that there is only one common mutation of the gene in Simmental cattle - Q204X. If a Simmental has one copy of the variant (one allele) it is classed as heterozygous, if it has two copies of the variant (two allele) it is classed as homozygous.

Homozygous animals exhibit greater loin depths, large, rounded rump & thighs, reduced fat cover & greater meat tenderness. However, they may also have heavier birth weights & slightly reduced milking ability & calving ability in females. Heterozygous animals have been found to exhibit the above characteristics albeit to a lesser extent.

Knowing the myostatin status of the bulls should help you to select bulls with the most appropriate myostatin traits for your breeding programme. This will inevitably improve calving ease, carcase conformation and quality, without compromising on key maternal traits, such as milk and fertility.

Below is a quick guide to the traits that are likely to be evident in homozygous and heterozygous calves born compared to calves with no myostatin:

	Increased Beef Yield %	Increased High Value Meat Area	Reduced Carcase Fat	Reduced Subcutaneous Fat Depth	Reduced Intramuscular Fat Depth	Increased Meat Tenderness	Increased Muscle Mass	Reduced Fertility in Females	Reduced Calf Viability	Reduced Calving Ease	Increased Birth Weight	Reduced Stress Tolerance
1 x F94L (Heterozygous)												
2 x F94L (Homozygous)												
1 x Q204X (Heterozygous)												
2 x Q204X (Homozygous)												
Key	Less More											

CONDITIONS OF SALE AT AUCTION OF PEDIGREE CATTLE

1. The Highest bidder for each animal shall be the purchaser, and in the event of any dispute, the Auctioneer shall have absolute discretion either to settle the dispute or re-offer the animal immediately.
2. The Auctioneer may, without giving any reason thereof, refuse to accept any bid and may withdraw any animal for which the bidding is considered insufficient.
3. No person may advance less at a bid than a sum to be named from time to time by the auctioneer, and no bidding may be retracted.
4. The vendor may bid for any animal. or animals, and may withdraw any animal, or animals either personally or through the auctioneer, or through any person, as many times as they respectively may think fit.
5. The purchaser of each animal shall give their name and address to the auctioneer and pay for all animals purchased in cash immediately at the close of sale . No animal or animals shall be removed from the sale premises until paid for in full and a pass-out slip is obtained from the Auctioneer.
6. Each animal shall be at the purchaser's absolute risk from the fall of the hammer, and shall be removed from the sales premises at the purchaser's expense.
7. The right of property of each animal shall not pass to the purchaser until the full purchase price is paid and the contract of sale is signed by the purchaser.
8. Care has been taken to ensure the accuracy of the catalogue, but no sale shall be invalidated by reason of any defect or faults in any of the animals by reason of the animals being incorrectly described in the catalogue, or by the Auctioneer in the ring, and no compensation whatever shall be paid in respect of any such faults or errors of description.
9. All statements in the catalogue are made by the Auctioneer at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only . No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale, and the vendors shall not be in any way liable should this occur.
10. Neither the vendors nor the Auctioneers will be responsible for any accident or any injury to persons or property through fire or any other cause whatsoever, nor for any damages by animals prior to, during or after the sale.
11. All animals are sold subject to the Conditions of sale recommended for use at auctions for the sale of pedigree cattle by the Irish Simmental Cattle Society Ltd.
12. The vendor gives no warranty whatever as to the fertility or performance of any bull, and each purchaser is invited to insure against this or any other risks, at his own expense.
13. Purchasers not complying with the above condition shall be subject, without further notice, to have their animals re-sold either by Public Auction, or by private Treaty, at the discretion of the vendor and the defaulter would be liable for any loss and expense that accrues on the re-sale.
14. The Irish Simmental Cattle Society accepts no responsibility for any errors or inaccuracies that may have occurred in the compilation of this catalogue.

PEDIGREE CATTLE BREEDERS COUNCIL OF IRELAND CONDITIONS OF SALE TO APPLY ON ALL SALES OF PEDIGREE CATTLE.

1. These Conditions (and where appropriate at auctions, these Conditions together with the General Auction Conditions of Sale), form the basis of the contract between the vendor and the purchaser, and from the contract all conditions and warranties implied under the sale of Goods Act 1893 and the Sale of Goods and Supply of Services Act 1980 or any other statutory enactment or implied by any law or custom or usage are expressly excluded.
2. In the event of a Sale by Auction and there arising conflict between these conditions and the General conditions of the Auction, these conditions shall prevail.
3. All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself about the animal prior to sale.
4. Save as hereinafter provided, no warranty whatever is given as to the performance or fertility of any bull and the purchaser is hereby invited to insure against this or any other risks connected with the bull, at his own expense.
5. The vendor shall and does hereby provide the following guarantee as to the fertility with each bull sold -(a) No guarantee whatever as to fertility is given with any bull under the age of nine months at the date of sale, unless otherwise stated in writing. (b) Subject to the Conditions hereinafter set out, the vendor guarantees that the bull is capable of putting a cow or heifer in a state of

pregnancy by natural service within four months of the date of sale or within four months of attaining the age of fourteen months, whichever is the later. This guarantee shall be deemed to be fulfilled whenever one female animal is proved to be in calf by natural service to that bull, subsequent to the sale. A bull shall not be deemed to be incapable of putting a cow or heifer in a state of pregnancy by natural service on a semen test only.

6. The foregoing guarantee is subject to the following conditions:-

- (a) The bull shall be fairly tried with a view to him putting a cow or heifer in a state of pregnancy by natural service within two months of the date of sale or within two months of attaining the age of fourteen months, whichever is the later. For the purposes of this paragraph, "fairly tried" shall not be deemed to have occurred when less than three female animals in season have been properly presented to or run with the bull.
- (b) If, upon purchase of the bull, it is found impracticable for the buyer to fairly try the bull within the period stated at paragraph 6(a) above, due to the purchaser's normal calving programme, the vendor must be informed in writing immediately after the sale of the month in which it is proposed to commence using the bull. The vendor shall not unreasonably refuse to extend to the purchaser within seven days of receipt of the said notice in writing from the purchaser.
- (c) The Purchaser shall give notice in writing by registered post to the vendor of an inability of the bull to put a cow or heifer in a state of pregnancy by natural service or a suspected inability in this respect, not before the expiration of one month nor after the expiration of three months from the date of sale or of the bull attaining fourteen months, or any extension of the commencement of the trial period granted pursuant to paragraph 6 (b) above or whichever is the later.

7. Breeding Guarantee - Females Any cow or heifer realising 500 gns, or more that is stated by vendor as having been served or artificially inseminated not less than 12 weeks before the date of the sale shall be guaranteed in calf to the service date or date of artificial insemination and to the bull stated, unless any alteration to the service particulars is announced from the rostrum or by the vendor at the time the animal is sold. The term "running with the Bull" implies no guarantee of pregnancy unless specifically stated by the vendor at the time of sale, neither shall the provision by the vendor of a certificate of positive pregnancy diagnosis imply any such guarantee this being merely an expression of opinion. Every heifer sold as un-served shall be so guaranteed and all such heifers (unless sold suckling their dams) shall carry a guarantee that they are capable of breeding. Calves sold suckling their dams are given to the purchaser free and no guarantees apply unless specifically stated by the vendor at the time of sale. No claim under these Rules will be effective unless made to the Auctioneers or to the vendor within the following time limits, as applicable, viz:

- (a) In the case of a cow or heifer sold as being in calf which proved NOT to be in calf - within 49 days of the date of sale.
- (b) In the case of a cow or heifer which, although in calf, does not calve to the stated service or insemination date - within TWO CALENDAR MONTHS of the date that the animal should have calved according to the particulars of service or insemination stated in the catalogue of sale, in all such cases, no claim will be admissible unless there is an interval of more than four weeks between the presumed due date (according to the stated particulars of service or insemination) and the actual calving date. NOTE the average gestation period for cattle is 285 days.
- (c) In the case of a cow or heifer calves at a later date than the due date the onus of proving the identity of the service bull shall be upon the vendor.
- (d) In the case of a heifer sold as un-served and which subsequently proved to be in calf - within SIX CALENDAR MONTHS of the date of sale.
- (e) In the case of a maiden heifer which proves incapable of breeding because of malformation or abnormality of the genital system - not before the animal attains the age of TWENTY SEVEN MONTHS and no claim under this rule be admissible after the animal has attained the age of THIRTY SIX MONTHS. NOTE: Any female (cow or heifer) that has been flushed for embryo transplant will be EXCLUDED from the terms of this guarantee but individual vendors of such animals shall have the option of giving their personal guarantee to be announced at the time of sale. No claims will be admitted under these rules where it can be proved that a cow or heifer is carrying a mummified calf, or has aborted or re-absorbed a foetus and no guarantee is given or implied that any cow or heifer will carry a calf full time. All claims must be submitted to the vendor and the Secretary of the Society and shall be resolved in accordance with the provisions of clause (f) of this agreement.

8. This agreement shall be interpreted in accordance with the law of the Republic of Ireland.

9. Commission - 5% payable by the Purchaser.

COOSE DRAFT SALE (Lots 97 - 108)

Here we have a handpicked selection of quality females from Coose put forward for this year's Simmental draft sale.

Coming straight from some of our top cow families within the herd and by sires who need no introduction, there is a range of different types and ages of heifers to suit everyone, all showing strong breed character and style.

From our January born calves, who offer the opportunity to bring out a show heifer next year, to our maiden heifers who are ready to breed. All heifers are scanned correct and right for breeding. The cattle come from a high health status herd and are eligible for export.

A genuine, powerful bunch of females with the potential to make excellent cows and a great addition to any herd. We can't wait to see what's in the future for these girls.

Photos and Videos available on our Facebook page COOSE LIVESTOCK.

Thanking everyone for viewing our heifers and wishing all customers the best of luck and enjoyment with their purchases.

The Tuohy Family.

CLONAGH FOUNDATION FEMALES: (Lots 109 to 123)

We are incredibly proud to present these 15 "FOUNDATION FEMALES" for sale on the 24th October 2026 in Roscommon Mart. Each of these females go back to the three foundation families in the herd; Clough Sandra, Clonaslee Wanda and Seabank Rosebud all still making their mark almost 40 years later. We have no doubt that each of these heifers would make an impact on any herd either as a foundation female, a new family line or a stylish addition to next years show team. We have retained one autumn heifer to preserve a family line and two very young spring heifers for the same reason other than that you are being offered the cream of the crop!

Our line up is backed by generations of the most influential sires we have been lucky enough to have owned leading to what is now the modern Simmental we have today! From a bull called Ballybane Edward purchased in the 90's to the latest purchase of Coltfeld Murry each has ticked a box for the herd. There could be a page written for each of them but Banwy T-Rex, Kilbride Farm Dragoon, Bruchag Glenfiddich, Manor Park Hansome

and Auroch Magnifico all purchased in the past 20 years shaping the herd with some of our own genetics used to compliment them with Clonagh Tiger Gallant, Bartman, Direct Debit and Legal Eagle further solidifying the family lines.

Our show record goes without saying, from 12 “Overall Simmental of the Year” titles out of the last 15 competed in to dominating senior classes in both the male and female sections over the past number of years which is predominately down to the power and presence of the females produced by our herd sires. Through the shop window of the show circuit cows like “Absolutely Fabulous”, “Dora the Explorer” and “Darling Eyes” have cemented their part in the history books but more importantly also gone on to breed their own show and sale champions ... where the real money is made!

We currently hold the society sale records for both male and female with €52,000 for Lucky Explorer in 2020 and €18,000 for Jubilant Fabulous in 2019 both of whom have family entered in this draft and have also bred top priced cattle themselves in the UK. For the past 6 years we have mainly sold our heifers via online sale and in two batch exports to Spain but there is nothing like the sale buzz you get in Roscommon and with a batch of heifers like these it was an easy decision to make.

As ever there is a wealth of information available on the website www.clonaghherds.com and social media platforms. All lots have been individually filmed and photographed with the emphasis on the video footage to accommodate the online bidders.

We wish everyone the best of luck with their purchases and look forward to hopefully following their successes for generations to come.
